

# Strasbourg

Our trip in Strasbourg was very interesting. We went three days, with the class euro english and spanish.

We visited many places, like the cathedral and at the dinner, we went in a restaurant to eat a traditional dish called flammekueche. And after, we went back at the camping.

The next day, we first had the breakfast in the camping. Once we were done, we took the tram to go at the european parlement and we assisted at a seance, where we saw famous people like Laurance farreng.

At the afternoon we went in a museum that is about the history of the war in alsace with nazis , where we did an escape game about it. And after, we had some free time to go around the city.

At night, we went to eat a flammekueche again. It was even better than the first time !! After that, we went back at the camping to sleep.

The last day, we cleaned the all cabin and pack our bags to left the camping for good. We took the bus to go in a memorial, where we learned more about the nazis in strasbourg.

And after that we went to the train to go back in our city !
